

Genics CuB

Genics CuB is an oil-free, environmentally safe, home-use wood preservative – a registered fungicide, termiticide and insecticide with USEPA.

Genics CuB is a unique, ready to use product for the protection and remedial treatment of wood against all wood destroying organisms.

Genics CuB's active ingredients are Borax and Copper – an internationally recognized and highly effective wood preservatives.

It is easy to apply; just brush, spray externally or inject for internal treatments.

Genics CuB can be used on decks, fences, poles, spindles, landscape timbers, lattices, gazebos, etc.

One 4 litre bottle of *Genics CuB* will cover approximately 20 square metres (215 square ft).

Genics CuB is premixed and ready to use.

Genics CuB is an effective control for:

- Termites
- Beetles
- Carpenter Ants
- Decay
- Fungi

Cobra™ ROD

WOOD PROTECTION SYSTEM

SAFE AND EFFECTIVE
WOOD PRESERVATION

FOR YOUR:

HOME

FENCE

DECK

BARN

POLE SHED

LOG HOME

Genics has been in the wood preservation business for over 25 years, providing wood pole testing and treating services along with wood preservation products and solutions to electrical utilities around North America.

Genics' philosophy is to keep it simple and safe – from manufacture to installation to the environment.

This philosophy has lead to the development of the Genics' COBRA™ wood protection system which, when used according to labelling can extend the service life of wooden structures by years.

COBRA™ Rods

Genics' COBRA™ Rod wood preservative rods are ideal for treating new and existing wood structures. Millions of COBRA™ Rods have been installed in power poles over the last decade. Made up of copper and boron, the COBRA™ Rods are both safe to use and easy on the environment. Being odourless, COBRA™ Rods can be used indoors and require no breathing protection. COBRA™ Rods use the moisture present in the wood to 'activate' or dissolve and migrate with that moisture, thus moving the preservative where it is needed. Several different sizes and packaging options are available.

1. Drill

Drill a hole at ground level (for posts and poles) using a 1/16" over sized spade or ship auger bit. Start the hole with the drill positioned horizontally. Once the bit is established, raise the drill to aim downward into the post at a 45 degree angle. Leave enough headroom to accommodate a plug.

2. Insert

Insert COBRA™ Rod(s) into the hole. Never hammer the COBRA™ Rod(s) during installation

3. Plug

Insert the plug and push firmly to seat in the hole. Hammer in plug until flush with surface.

Packaging Available:

1/3" x 1" Size Packaging **New Size!**

20012	COBRA™ Rods – 1/3" x 1" 25pk	25 pk
20016	COBRA™ Rods – 1/3" x 1" 100pk	100 pk

1/2" x 2" Size Packaging

20096	COBRA™ Rods – 1/2" x 2" 50pk	50 pk
20098	COBRA™ Rods – 1/2" x 2" 100pk	100 pk
20305	COBRA™ Rods – 10 - 1/2" x 2" & 10 – 9/16" Black Reusable Plugs	10 pk
20307	COBRA™ Rods – 10 - 1/2" x 2" & 10 – 9/16" Brown Reusable Plug	10 pk

1/2" x 4" Size Packaging (25/64" diameter)

20311	COBRA™ Rods – 1/2" x 4" 50pk	50 pk
-------	------------------------------	-------

3/4" x 3" Size Packaging

20352	COBRA™ Rods – 12 - 1/2" x 2" & 12 – 9/16" Black Reusable Plugs	12 pk
20362	COBRA™ Rods – 12 - 1/2" x 2" & 12 – 9/16" Brown Reusable Plug	12 pk
20355	COBRA™ Rods – 3/4" x 3" 100pk	100pk

When installed according to the method shown on the left (cross-grain), the COBRA™ Rods will have excellent diffusion throughout the heart of the pole/post/log. Using a staining technique, the log in the picture to the right shows the diffusion of COBRA™ Rods.

Reusable Plugs

Designed to work in conjunction with the COBRA™ Rods, the plugs offer an excellent means of maintaining and effective level of protection for your wood structures. Every 5 to 10 years, simply use a flat screwdriver to remove the plug and probe the treatment hole. If the rod has been significantly used up (enough room for another rod) simply insert a new rod and tap or turn the plug back in the hole. If the rod is intact enough that no room for another rod exists, simply tap or turn the plug back in and check the hole at a later date.

Packaging Available:

30623	COBRA™ Plug 9/16" Black	50 pk
30625	COBRA™ Plug 9/16" Black	100 pk
30632	COBRA™ Plug 9/16" Brown	50 pk
30633	COBRA™ Plug 9/16" Tan	50 pk
30635	COBRA™ Plug 9/16" Brown	100 pk
30636	COBRA™ Plug 9/16" Tan	100 pk
30685	COBRA™ Plug 15/16" Black	100 pk
30690	COBRA™ Plug 15/16" Brown	100 pk
30691	COBRA™ Plug 15/16" Tan	100 pk
